# **Studies** Prisoner Appeal

Rollie Laster Asks For a New Hearing On Prison-Riot Slaying of Convict

JEFFERSON CITY, (P) - The Missouri Supreme Court today took under advisement an appeal from the death sentence given Rollie M. Laster for the prison-riot slaying of a fellow penitentary convict.

His attorney, Thomas P. Rose based the appeal on three points
—that the number of intrrogations to which Laster was subjected tended to make his confession involuntary, that the Cole County Circuit Court jury was biased and prejudiced and that Laster should have got no more than a life sen-

Laster was one of seven convicts tried and convicted separately for killing Walter Lee Donnell. an alleged "squealer," during a bloody prison riot here Sept. 22,

Laster was tried first, in January, 1955, and was the only one to receive the death penalty. The others were sentenced to life in

Rose said Laster was tried here a "stone's throw of the penitentiary" and within four months after

The others were able to get changes of venue and trial delays, thus facing juries not so aroused by fear of a possible prison break-

### Washington Merry-Go-Round-

## Tydings Seeks Nomination, Vindication

for his pains.

By DREW PEARSON

WASHINGTON - The first real casualty of McCarthyism comes up today before the people of Maryland. He is Millard Tydings, the Democratic senator who headed the committee to investigate McCarthy's original charges of 205 card-carrying Communists in the State Department and who, when he refused to knuckle under to McCarthy,, found himself defeated for re-election.

McCarthy called upon his Chicago Tribune friends for campaign funds, collected \$10,000 from Texas oil tycoon Clint Murchison and wife, circulated a fake photo of Tydings shaking hands with Earl Browder and managed to knock Tydings out of the Senate.

No less than FDR had tried to defeat him in 1938, but the vogue of McCarthyism was such that the senator from Wisconsin succeeded where the President of the United States had

So the people around the nation today will be watching Maryland to see whether Tydings will be voted vindication.

Whether he is or not, the events of the last two years have certainly given vindication. Roll Call of "Communists"

Owen Lattimore, the Johns Hopkins professor whom McCarthy smeared and Tydings defended, has now been cleared by the courts.

Val Lorwin, the State Department official whom McCarthy named as a Communist and who was indicted for perjury when he denied it, has now been cleared. The Justice Department appeared in court to state it had no case.

Edward Lamb, the Toledo Radio-TV owner, smeared by the FCC as a Communist, has now shown that the witnesses accusing him were phonies. One has been convicted of perjury.

Jacob Burck, the Chicago Sun-Times cartoonist accused by the late Paul Crouch of being a Communist, has been exonerated. Crouch, the professional witness for the Justice Department who also tried to smear Aubrey Williams, former Youth Administrator, and Clifford Durr, brother-in-law of Justice Hugo Black, was so discredited that the Justice Department dropped

Abraham Chasanow, who was dropped by the Navy department as a security risk, was rehired by the Navy with an apology.

Mrs. Annie Lee Moss, who was hauled up before McCarthy's committee and charged with being a Communist, has been rehired by the

Dr. Ralph Bunche, the Negro diplomat who was investigated by the Justice Department for seven months, was cleared.

Not all these cases were attributable directly to McCarthy. But it was his tactics which created such a terrorist atmosphere that in some cases Attorney General Brownell almost outdid him, and which caused Dr. Vannevar Bush, president of the Carnegie Institution, to warn:

"The Eisenhower security system has dropped the morale of scientists so low that our world leadership in atomic research is in danger."

That statement, made two years ago, was all too prophetic of the current fact that Russia appears to be ahead of US in hydrogen research and may be ahead of us in guided missiles.

How much harm was done to the nation during the period of McCarthyism may not be known for some time. Meanwhile it will be interesting to see how the people of Maryland

### Guest Editorial-

INDIANAPOLIS NEWS: Little End of Horn. Perhaps, for our peace of mind, we Americans look too often through the wrong end of the tele-

We strain ourselves to pick out the bad things, which are decidedly in the minority when compared with the good, in our national life.

Statistically speaking, it seems like we are always hunting for something to deplore. What brings this to mind is a little "bright

side" item in the Catholic Digest. It is a refreshing presentation, as follows: "There are 162,922,000 Americans who are not

members of the Communist party. Some 37,-011,400 couples in the U.S. will not apply for divorce. The internal revenue department will get 43,846,154 correctly filed income tax returns. Eighty-three countries do not have the hyrogen bomb."

See what we mean?

vote on one of the few senators who had the

courage to stand up against it, and got defeated

There's a good, though unadvertised, reason why Colonel McCormick's Chicago Tribune radio station WGN is pulling out of the Mutual Broadcasting System. It's to get out of a \$300,000 annual contract with Jim Petrillo and the Musicians Union.

If the station gets off the network it can get out of this contract and thereby hangs a tale: Original chief reason for the musicians' contract was that the late Colonel McCormick liked to expound on Saturday nights over his radio station and he needed an array of fiddles, bass viols, etc., to play in the background. The alleged "Climax" of the McCormick hour was a rather dull dissertation on military weapons, isolation, and foreign policy which the Colonel read in monotonous voice to his captive audience.

But now that the Colonel has passed on to other battlefields. WGN, which stands for "World's Greatest Newspaper." doesn't need all the orchestration. So the Tribune is dumping the Mutual network to get out of the Petrillo

Meanwhile Thomas F. O'Neill, vice president of General Tire and chief owner of Mutual, is dickering with Station WCFL, which stands for Chicago Federation of Labor and is owned by

AFL-CIO. It'll be a strange combination. **Bombs** and Drills

The current series of H-bomb explosions in the South Pacific will be the most devastating vet. This was tipped off on the eve of the Eniwetok tests by Connecticut's Congressman James Patterson, a member of the joint Atomic Energy Committee. He predicted that "the explosion scheduled for about May 1 will surpass in power any nuclear detonation thus far." . . . Up to now, history's biggest bomb was exploded March 1, 1954. This had the explosive force of 17,000,000 tons of TNT and formed a mushroom cloud over 100 miles in diameter. It was a larger explosion than our atomic scientists expected, and scattered atomic ash on the nearest observers, including the much-publicized Japanese fishing crew. . . Largest hydrogen explosion set off by the Russians has been estimated by our intelligence at 13,000,000 tons of TNT. . . . Meanwhile, tiny particles of radioatcive fall-out from both Russian and American hydrogen blasts are still drifting down to earth years afterward. These particles, however, are considered harmless, . . . The Texas Oil boys have sheepishly discovered that the Russians are ahead of them in developing oil drills. The Soviets have designed a turbo drill that works 10 times as fast as conventional drills used by American oil companies. . . . At least one company, Dresser Industries of Texas, has swallowed its pride

### **Meet The Champ**

how to build their new turbo drill.

In recent weeks Adlai Stevenson, troubled by his poor Minnesota showing, has embraced the handshaking routine that seems to work so well for his rival, Sen. Estes Kefauver. But an event in Florida raises a question whether Adlai can ever outdo the old master at this game.

The World Today-

## US Suggestion Is Footnote on Korea

South Korea.

By JAMES MARLOW Associated Press News Analyst

WASHINGTON P-It is almost like a small footnote on the dismal story of Korea when the United States suggests abandoning as useless the truce teams set up to see that neither side cheats on the armistice. The United States has long com-

building up their forces and not letting the truce teams get around enough to check up. The armistice was signed July 27, 1953, after 3 years and 32 days of fighting and 2 years and 17 stice, began on the

plained that the Reds in North

Korea have violated the armistice

stice. There is still an armistice. But there is no real peace. The armistice provided for calling a conference-within 90 days after the signing of the truce-to work out the "peaceful settlement

of the Korean question, etc." That "etc." was a beaut. It could mean anything or everything. No one ever got to the point of finding out what. There was no peace conference. There were only conferences to arrange a conference and they broke up.

Both sides agreed in the armistice neither should build up its forces or add to its supply of weapons. To provide a check both sides agreed they should be open to in-

So they created inspection teams-called the Neutral Nations Supervisory Commission - made up of men from Sweden, Switzer-

## Looking Backward...

TWENTY-FIVE YEARS AGO Sedalia's new postoffice, northeast corner Fourth and Lamine, was over 93 per cent completed and was to be ready for occupancy by July 1.

At the annual convention of Christian churches of the second district of Missouri at the First Christian Church about 250 representatives of out of churches attended. Dr. F. E. Smith, Indianapolis, Ind., gave an address on the \$8,000,000 pension fund that was to be raised.

Sam Jordan, Pettis County's first farm agent, with the state board of agriculture in Jefferson City, was a business visitor.

Harry O. Berry was made commanding officer of the headquarters battery, Missouri National Guard, at the regular drill meeting of that unit.

FORTY YEARS AGO Henry V. Leist, who had been a salesman for the Stevenson Packing Co. for over a year, resigned to take up other activities.

A building permit was issued E. M. Chaney for erection of a seven-room residence at 15th and

Judge E. G. Leftwich, member of the county court from the eastern district, announced candidacy for renomination by the Democrats in the August primary.

Theodore Bergfelder, 914 South Vermont, received a sprained back in derailment of a car of mixed Warsaw train No. 641 near Warsaw on the Sedalia, Warsaw and

land, Poland and Czechoslovakia, The Poles and Czechs, being Russian satellites, could hardly be called neutral. So the commission was suspect from the start. The commission became an 80-man group divided into 20 inspection teams stationed in North and

By last summer, after 23 Polish and Czech inspectors stationed in South Korea were accused of spying for the Reds, the 80-man commission was cut in half. It was cut more later. Now there are only six inspection teams left.

Trouble, and doubts that the when an American radar outfit reported the Reds had flown in many planes that day.

That was before the inspection The Communists will have someteams really had a chance to get thing to say about that, since the started. Once they did, there was inspectors were the creation of the more trouble. South Koreans at- armistice to which both the Reds

Czech inspectors; the United States has charged the Reds in North Korea have not only greatly built up their air force but have built many airfields not there during the war. The West complained the Swiss

and Swede inspectors were not permitted to carry out their job by covering enough territory in North Korea. As long ago as Aug. 1954, Secretary of State Dulles indicated he would favor disbanding the truce commission altogether. The United States has repeated this suggestion since. Last week Robert Murphy, dep-

Dr. Jordan Says---

### Hair Coloring Is Inherited Through Pairs of Genes

By EDWIN P. JORDAN, M.D. A correspondent who says she is 89 years old asks a question which I cannot answer but which nevertheless raises an interesting subject. She says she has no gray hairs, was born a blond but now her hair is light brown and she wants to know why. Indeed, I wish I could answer.

The hair color is determined before birth by certain factors inherited from the parents, called

To have true blond hair a person must have inherited two genes one from either parent.

Dark hair can come from two dark haired genes or from one dark gene and one gene carrying any other shade.

Red hair is present in the person who has either one or two red genes from the parents.

Black hair contains heavy deposits of pigment granules made of a coloring matter, called melanin. In blond hair, the yellow effect is caused by the presence of dilute coloring matter. Red hair is caused by a dissolved red pigment differing from that which makes black hair black. In white hair pigment in the hair cells is absent.

White hair may be present at birth or can develop during life by gradual loss of pigment. In

## About Eisenhower, Panzer Battles, English Royalty

By Joseph A. Dear Democrat-Capital Washington Correspondent

WASHINGTON-Eisenhower the President by Merlo J. Pusey (Mac-Millan) should be especially pleasing to readers who want even their slightest misgivings about the Administration put to rest.

Mr. Pusey, an associate editor of the Washington Post and Times Herald, won the Pulitzer Prize in 1952 for his biography of Charles Evans Hughes. His new book, though, seems pedestrian and ob-The technique of the balanced

editorialist shines through. Exam-"The President did not hesitate to fight with McCarthy . . . when an important policy or issue was at stake . . . In some instances the President did seem to go out of his way to avoid antagonizing McCarthy . . . " And so on. The balance, of course, is always in favor of the Administration. Pusey reports that the news of

Senator McCarthy's censuring brought a warm glow to Eisenhower's ruddy face . . ." Later, when Senator Watkins (chairman of the special committee that found against McCarthy) called at the White House, the President "expressed his unalloyed delight over the outcome . . .

Even later the White House advised that in congratulating Watkins, the President was thinking only of the difficult task Watkins had faced and had not intended to express approval or disapproval of the censure resolution. Pusey doesn't mention that.

Panzer Battles (University of Oklahoma Press) by Maj. Gen. F. W. von Mellenthin is yet another addition to the growing number of volumes written by soldiers of our now noble ally, but once bitter enemy, Germany, Gen von Mellenthin, who was

chief of staff of the 4th Panzer Army, served on the Eastern front, in Africa with Rommel, and on the Western front against our men.

But it is the story of the cam-

By Robert L. Dieffenbacher, D.D. Fan mail can be weighed by the Japanese press commented tempound or counted in statistical terms when ratings are desired for the determination of program popularity. Possibly some columnists keep statistical records of acceptance, but many take very seriously the letters which reach their desks. Some psychologoists used to say that the writing of fan mail was a habit practiced by a few people

who liked to talk. If that were ever true, the situation has changed People appear to have become extremley sincere. They are concerned for themselves and for their friends. They want to see this land

of ours become even better than it

religious fervor. The hopes and determination of Americans are faithful expressions of confidence in what "we" can do. Few criticize the "other fellow." Rather they propose to oaccept the responsibility for making their communities more aware of higher spiritual values and the resultant uplift of moral living.

Fan mail should not be used as a measure of personal popularity, but rather as pulse-reading of America's heartbeat.

From this vantage point, it looks as though America is pretty healthy. Let us pray for continued spiritual health and for the healing of those moral ailments which do

paigns in Russia which commands the most interest. Von Mellenthin describes in some detail the techniques the Germans worked out for panzer attacks on areas defended

in depth with anti-tank weapons. His assessment of the Russian Army's strength and weaknesses also are interesting, although as he observes, the German experience will diminish in value as World War II fades back in time. The Russian soldier, according to von

Mellenthin, is a very tough nut.

H. R. H. (Little Brown), was the late James Hilton's last book. It is the story of Philip, Duke of Edinburgh. He is, of course, the husband of England's Queen. There is a vaguely defensive tone

about the volume, which suggests Hilton thought there was a need for it. It is pleasantly written, as might be expected. Mr. Hilton's complimentary

study isn't especially moving, but then he may not after all have chosen a very inspiring subject. **H-Bomb Test** 

# Is Postponed Once Again

ABOARD USS MT. MCKINLEY. Bikini Atoll (A)-Cautious H-bomb testers again today postponed firing Shot Cherokee Dr. William E. Ogle, acting sci-

entific test director for Joint Task Force 7, said the American test might take place Thursday, Bikini time (Wednesday, U.S. time). But he also told newsmen he would not be surprised if the blast was delayed until May 15. The blast originally was slated

tentatively for tomorrow and then for Wednesday. Weather conditions were blamed each time.

The big bang had been scheduled to take place at several thousand feet altitude after a drop from America's intercontinental bombers, the multijet B52, a

shortly before dawn. Testers decided to wait on the weather to make sure radioactive fallout doesn't drift outside the established danger zone as it did in 1954, when the Fukuryu (Lucky Dragon) Maru No. 5, a Japanese fishing boat, was dusted with fallout and its crew of 23 sickened, One died

The delay was announced as the perately on America's need for conducting the tests but expressed the firm conviction that all such

Tokyo Shimbun, expressing regret that America had disregarded Japan's request that the tests be suspended, noted that the United States "is taking every precaution to avoid bad affects from the experiments" this time.

WASHINGTON (P)-Sen. George (D-Ga) said today he doubts the country will be willing to accept as a permanent policy anything less than equality with Russia in a long-range bombing force.

George, who heads the Senate Foreign Relations Committee, said he does not disagree with President Eisenhower that the United States has tremendous air striking power from a chain of bases and in a highly mobile navy.

But George said he doubts the country will accept Eisenhowers' thesis-expressed last Friday at a news conference—that while it is vital to have what is needed in intercontinental bombers it isn't necessary to outbuild the Russians in this one weapon.

"The country has been taught that the long-range bomber is the that the long-range bomber is the core of our striking force." Hands Defeat George said. "It will remain disturbing to the country to be constantly reminded that the Russ stantly reminded that the Russians are building up an enormous air force but that we are not keeping pace.

## How 87 Missouri Farmers Changes in method of preparation Managed Knee-High Corn

### into an increase of 68 extra bushel per acre

In 1955, eighty-seven farmers took a tip from Missouri State Agricultural Station bulletin 583. It says: "Anhydrous ammonia is probably the cheapest source of nitrogen ... Even when applied late in dry seasons, it may give better results than some of the solid forms applied then since the points of the applicator can place the material 6 inches below the surface and in a moist region where roots are actively growing."

Side-dressing their corn with MFA AN-HYDROUS AMMONIA (82% Nitrogen) made an average corn crop of 108 bushels per acre for these 87 Mo. farmers - or 68 bu. an acre more than Mo. state average

MFA ANHYDROUS AMMONIA builds bigger root systems that reach deeper for available moisture. Gives knee-high corn the EXTRA "KICK" for a bumper yield. Phone or see us today about a side-dress for your young corn.

Frank Elsea, Greencastle, Mo., is plenty satisfied. He boosted his corn yield to 117.50 bushels of corn per acre. Elsea side-dressed his corn with 80 lbs. MFA ANHYDROUS AMMONIA to the acre.

LAMONTE ELEVATOR

SAN FRANCISCO (A)-The Pacific Coast Conference killed the Torchy Torrance "slush fund" for University of Washington athletes and indirectly assessed the school \$52,000 in penalties yesterday as part of a 2 year probation.

the conclusion of a 2-day meeting of PCC athletic directors and faculty representatives.

At the end of the meeting, Dr. Glenn Seaborg, University of California representatives and conference spokesman, made it clear the conference is not through digging into the Washington situation. He added that if names of athletes who have been taking under-thetable payments are learned they will be declared permanently ineligible for amateur competition.

The probation restrictions will not become effective until August 1. Hence Washington track and field men and the Washington crew will get a chance to try out for the Olympic games.

Victor O. Schmidt, PCC commissioner, told newsmen he had made three trips to Seattle this spring to check on operation of the so-called slush fund. Both he 1), vs Brewer (2-1.) and the University of Washington look at the funds books. He said Roscoe C. (Torchy) Torrance, Seattle businessman, had admitted administering the fund for the benefit of Husky gridders. Sources outside the conference said the payments ran up as high as \$60 a month

Probation restrictions will provent any Washington team from being listed as a conference champion, or competing in any postseason or all conference competi tion, in effect limiting Washington to dual competition in all athletic activities.

In addition, the restrictions prevent Washington from participating in any of the receipts, gate, TV or radio, from the annual Rose Bowl game with the Big Ten. This has the effect of a \$52,000

SIGNS OF FRIENDSHIP-A retired streetcar conductor is well started on a full-time career of being a friend of man. He's Charles A. Roe of Cleveland, Ohio, who hangs large plastic signs in front of his home. They cost him nine dollars apiece plus 20 cents a letter. Roe, whose signs range from invitations and directions to the nearest church to timely reminders and maxims on life, has had many a passerby stop in for a friendly

response to a call by Dulles for an hearts and minds of the neutral "You are entrusted with the "ideas" drive that would defeat peoples of Asia, Africa and the C. R. Shull, auctioneer Middle East. It is to report back to the NATO Council of Foreign Ministers before December after consulting with the member gov-

> Lloyd said on his return to London that NATO would remain primarily a military alliance.

"But there is no reason why we should not take the offensive in propounding our political ideas throughout the world," he emphasized.

Pearson conferred last night with Lord Ismay, NATO secretary general, on the possibility of setting up a European headquarters secretariat for the "Wise Men" committee.

Pearson, Martino and Lange left for their respective capitals to obtain the approval of their governments for their new duties. The mosot ambitious proposal in their briefcases is the U.S. plan

for an Atlantic cabinet. Dulles told the NATO Ministerial Council that he and President Eisenhower favored a panel of Atlantic nation leaders which would sit in almost continuous consultation to iron out differences among the Allies and harmonize their economic and political attitudes to

ward the rest of the world. Members of the Atlantic cabinet would be leaders second in ters. They could work either within the framework of NATO or in some other free world context. Dulles said such a consultative body might be the instrument of preserving Allied unity and thus saving Western civilization from being overrun by communism.

### Damaged Destroyer Limps Slowly to Port

NORFOLK, Va. (A)-The escort destroyer Eaton limped slowly to-ward port today, a 30-foot deep gash in her side-put there by the battleship Wisconsin.

The 45,000 - ton battlewagon rammed into the 2,100-ton destroyer yesterday afternoon dur-ing maneuvers off the Virginia Capes. The weather was foggy. Navy spokesmen here said the Eaton was turning when the Wisconsin's bow plowed into her side

No casualties were reported. The Wisconsin suffered slight damage to her bow.
